### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Lary (5,156,150).

Lary teaches a device as claimed. The Examiner is considering the breast map including a graphic representation of a breast anatomy including a nipple location to be the device as shown in figure 3. The grid lines shown by reference number -65- comprise colored ink. Enclosure -70- is a sealable, leakproof container.

### ***Response to Arguments***

Regarding claim 6 - the applicant argues that Lary does not teach a "gross breast pathology breast map including a graphic representation of the breast including the nipple". The examiner has considered Figure 3 to be the breast map as claimed because it includes the representation as claimed and the location of the tumor is placed on the map by the surgeon. The kit of Lary also includes a device for locating the actual specimen. The map including the graphic representation as claimed is not required to have the specimen attached thereto. However the examiner believes that

Art Unit: 3735

the map of Figure 3 is capable of having the specimen connected thereto. While the method of Lary does not call for the specimen to be connected to the map with the graphic representation on it the applicant is reminded that claim 6 does not require any method steps. The claim as recited does not include any specific structure for the breast map, other than the graphic representation, therefore the examiner is considering the device of figure 3, as a breast map.

***Allowable Subject Matter***

Claim 1-5 are allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3735

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
